### 3.1 Describe the activities of the proposal

The NPRI Project, 4 phase, will be developed along the following axis:

1. **Providing support to (other) Countries and Networks that plan to implement NPRI, as already done in phase two of the project.**  
The plan foresees that two Countries will plan to implement NPRI and that IMPEL will support them in this activity.  
Types of support through:
  - a. Preliminary Teleconferences
  - b. Country visits to discuss the program
  - c. Follow-up teleconferences
1. **To follow-up with Countries and Networks that already decided to implement NPRI in phase two of the project. Beside the type of the help already delivered in phase two, assistance will be provided in the execution of peer reviews.**  
Types of support through:
  - a. Preliminary Teleconferences
  - b. Country visits to take part in (at least) a section of the NPRI
  - c. Follow-up teleconferences
1. **To provide training of Project Team members in the implementation of NPRI, by setting up a team of experts in NPRI with the scope to apply assistance to other countries that want to implement the NPRI scheme or to expand it to other areas.**  
Training approach:
  - a. Use of manuals
  - b. Teleconferences
1. **Training of Officers in Countries that implement NPRI to continuously improve their skills in the management of the technique.**  
Training approach through:
  - a. Use of manuals
  - b. Teleconferences
1. **Further improvement of the NPRI methodology and related reference text and modules. Furthermore, the use and benefits of the NPRI scheme will be promoted through the following ways, as well as through participation in the High Level ECA Forum of the European Commission.**  
Ways:
  - a. Project meeting
  - b. Teleconferences
  - c. Final seminar

Description of the Risk	Mitigation Method	Probability	Impact
<i>What are the potential risks for this project and what actions will be put in place to mitigate these?</i>		<i>Give a score from 1 to 5. 1: Low probability/impact 5: High probability/impact</i>	
Delay or cancellation of the funding approved by the GA because of external factors (i.e. grant issues)	Reduction of the objectives and outputs of the project, extension of use of teleconferences, if and when possible and not decreasing the quality of the work; evaluation of the Project Team members of the possibility of co-funding of the Project; Probability impact non clearly predictable, but high if considering last years' experience	4	5
Impossibility of the project team members in following up the activities	Increase the activities on the rest of the project team	2	2
Travel ban	Reduction of the objectives and outputs of the project, extension of use of teleconferences, if and when possible and not decreasing the quality of the work; modification of the original program, staying inside the budget, in term of places to go, number of travels, and in term of number of participants.	4	4
